WELLNESS TIP

WHAT NOT TO DO IN BED

You can read, you can rest, you can sleep, you can make phone calls. you can eat breakfast, you can watch T.V., you can listen to music, you can exercise,

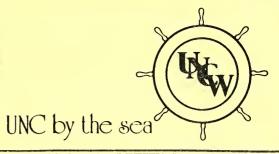

you can snore, you can even eat crackers--provided you're alone and yes, you can snuggle.

But don't ever light up a cigarette when you're in bed. Because, if you doze off just once, all your dreams can go up in smoke.

VINGS NDS

More people buy U.S. Savings Bonds than any other security in America. Bonds offer competitive earnings, good tax benefits, and complete security. Buying bonds is also an excellent way to help strengthen the American economy. February has been designated as UNCW's month to buy bonds. After considering the following advantages that bonds have to offer call Kay Fryar at 3713 or Cathy Kiger at 3161 in the personnel office. Bonds are payroll deductible.

::

-Savings Bonds earn variable market-based interest, like money market accounts, if held five years. Current rate is 6.06%

-There are no state or local income tax on interest earned from bonds. You can defer federal tax on accrued interest until they are cashed or mature.

-Bonds are issued and backed by the US Government, making them one of today's safest investments. If lost, stolen or destroyed, they can be replaced upon proof of ownership.

-Bonds are available in eight denominations ranging from \$50 to \$10,000. The price you pay is half the bond's face value.

Ease Into Your Work-Out With a Warm-Up. The purpose of warming up is to prepare your body for exercise. Studies show that a warm-up period prior to exercise will help prevent serious electrocardiogram abnormalities which result when exercise is not preceded by a warm-up period. Proper warm-up may also help prevent muscle pulls, strains, low back discomfort and reduce the extent of muscle soreness. Stretching is no longer considered to be the proper way to warm-up prior to vigorous physical activity, such as jogging, hiking or walking. Experts are now saying that to warm-up you should gradually increase the temperature of the muscle. This can be done by 1/ calisthenics, such as jumping rope 2/ running in place 3/ walking at a moderate pace for 3-5 minutes and 4/ using a stationary bicycle with little or no resistance. A great way to warm-up is to specifically warm-up the body parts to be used in the exercise you will be performing. You can do this by simulating the activity at a low intensity. Example, if you plan to swim start off slow until you are warmed up. A good indication that you have adequately warmed up your muscles is the onset of sweating. Once you have warmed up, you may want to stretch for the purpose of improving your flexibility. It is also equally important to take 5-10 minutes to stretch at the end of your work-out.

AMA PRESIDENT TO DISCUSS NATIONAL HEALTH ISSUES AT UNCW

Or. William Hotchkiss, president of the American Medical Association, will iscuss national health issues at 12 noon, Feb. 17 in room 100 of the UNCW Jniversity Union. The presentation is free and the public is invited.

The campus presentation will be the only public speech during his visit. iotchkiss will spend two days in Wilmington at the invitation of the New Hanover-Pender County Medical Society Auxiliary and the Medical Society. His campus talk is sponsored by the UNCW School of Nursing.

iotchkiss, a thoracic surgeon from Chesapeake, VA., was elected president of the American Medical Association at its annual meeting in June, 1987. The AMA is a nationwide voluntary association of physicians whose purpose is to uphold standards and practices of good medical care.

Prior to his election to the AMA Board of Trustees, Hotchkiss was president of the Medical Society of Virginia 1971-72. He was elected to the AMA Board in 1978. Prior to assuming the presidency, Hotchkiss held a number of positions on the AMA Board including vice chairman and secretary-treasurer.

After earning his doctor of medicine degree at the University of Texas Medical School in Galveston, Hotchkiss completed his residency in general surgery at the Henry Ford Hospital. He trained in thoracic surgery and later completed his residency at the Veteran's Hospital in McKinney, TX. Hotchkiss is a Diplomate of the American Board of Surgery and the American Board of Thoracic Surgery.

When asked to comment on Hotchkiss' talk at UNCW, Dr. Marlene Rosenkoetter, dean of the School of Nursing, replied, "The nursing shortage is one of the most crucial health care issues in the nation today. I'm confident he will speak to this issue."

The School of Nursing at UNCW offers a program leading to the Bachelor of Science degree with a concentration in professional nursing. UNCW's nursing program currently has 41 enrolled students, 11 full time faculty members and 2 adjunct professors. Rosenkoetter added, "We are looking forward to his comments."

BENEFITS OF WALKING Walking benefits -- walking is particularly suited for weight control because it is so gentle. The last thing an overweight person needs is an exercise that pounds his/her joints. Walking revs up your metabolism so that you burn more calories; it increases the burning of fat, not muscle. Walking may also help curb your appetite. Also, walking can lift your spirits by stimulating the release of natural mood-elevating chemicals called endorphins. Some researchers have found walking to be helpful in easing depression. In a study at the University of Southern California, researchers found walking to be more effective than a tranquilizer in relieving anxiety. (Source: Prevention Health Magazine)

D-OF-THE AR 'FUNDS According to state law, all general fund purchases must be received and paid for by the end of the fiscal year or the funds will be reverted and the merchandise paid for out of the next fiscal year's funds. Purchasing is placing its major emphasis at this time on attempting to receive and pay for all items purchased during the 87-88 fiscal year. They are asking that only requisitions needed right away be sent to the purchasing office for processing. After June 15, only emergency orders will be processed. Requisitions for items to be encumbered out of next year's funds will be held and processed after July 1.

ICW GETS INDS FROM IAA UNCW has recently received \$1.1 million from the National Oceanic and Atmospheric Administration to continue its undersea research activities in 1988. Under the direction of Dr. Alan Hulbert, the National Undersea Research Center at UNCW will use the grant to accomplish three main objectives — undersea research on environmental, fisheries and pollution issues of the continental shelf of the Southeastern United States; development of new diving technology and tools for undersea applications and a new initiative to further the understanding of the ecology of the NC continental shelf and slope.

ISWERING CHINES TO ALL EMPLOYEES: the present university owned telephone equipment was designed and purchased to handle a limited number of answering machines. Current answering machines require from one to five rings before answering and a message can last from 15 seconds to over one minute. A response to the message can vary in length with no limitations. The addition of extended holding times on incoming telephone trunking facilities will require equipment and space in excess of the university's current funding. Until additional funding is obtained — the vice chancellor for business affairs is asking that all personal answering machines be removed and that only those few machines approved in accordance with University Procedures Manual Tel 1.10 be attached to university owned telephone equipment.

EANC NNUAL EETING The 1988 Annual meeting of the State Employees Association of NC District 38 will be held June 21 at 7 p.m. in UU-100. Hors d'oeuvres will be served from 6-7 p.m. with the meeting beginning promptly at 7. All members are encouraged to attend.

THE NEXT CAMPUS COMMUNIQUE WILL BE DISTRIBUTED ON JUNE 30.

BUSINESS SCHOOL PLANS DEDICATION OF CAMERON HALL

The new 60,000-square-foot building housing the Cameron School of Business Administration at The University of North Carolina at Wilmington will be dedicated in ceremonies beginning at 2 p.m., Wednesday, October 5, in room 105 of Cameron hall. All faculty and staff are invited to attend.

On hand for the occasion will be Mr. and Mrs. Daniel D. Cameron and Mr. and Mrs. Bruce B. Cameron. The UNCW Board of Trustees named the \$6 million building in honor of the Cameron brothers on the recommendation of Chancellor William H. Wagoner in "recognition of the extensive and continuing contributions of Dan and Bruce Cameron to the university."

Included in the dedication program will be a slide presentation about the Cameron School of Business Administration by Dean Norman R. Kaylor. Between 3 and 4 p.m., the building will be open for tours and refreshments will be served.

The Cameron School of Business Administration is organized into four academic departments -- Accountancy and Business Law; Economics and Finance; Management and Marketing; and Production and Decision Sciences --as well as the Center for Business and Economics Services. A regional office of the Small Business and Technology Development Center is affiliated with the school.

The School of Business enrolls more than 1,500 undergraduate and 120 graduate students, more than one-fifth of the total university enrollment. Six undergraduate degree programs are offered along with the Master of Business Administration degree.

The building, first opened to students at the beginning of fall semester 1988, contains 16 lecture and seminar rooms, office space for 70 faculty and administrators, a lecture hall that seats 308, and two computer labs with 24 stations each. Two-thirds of the classrooms are equipped with semi-circular fixed seating with approximately one-half of those being tiered. Tiering fosters maximum student-teacher eye contact as well as maximum audio abilities of the rooms themselves.

SPECIAL EDITION

TRAFFIC FLOW CHANGES ON CAMPUS

s you may have noticed, the North Carolina Department of Transportation is nstalling a new traffic signal at the intersection of South College Road and drian Hurst Drive. Once this light is fully activated, Adrian Hurst Drive ill become the primary southern entrance to the University.

hen this light is activated, we will close Riegel Road beside the Natatorium. ccess to Parking Lot K will be maintained.

n addition to these major changes in the entrances from South College Road, us riders should note a change in routes and bus stops which we expect to ccur in mid-December. All bus traffic will enter the campus on Street G near he water tower and turn west on Randall Drive. All stops and pick-ups will e at the new turn out on Randall Drive near DeLoach Hall. Permission has een given the City to install a bus shelter at this location.

new parking area is nearing completion beside Lot S. It is located parallel o Lot S and is just west of the new cafeteria construction site. Access to hese new parking spaces can be from the new extension of Randall Drive and lso from Street F.

• University Community members adjust to these traffic flow changes, we urge 11 drivers to be cautious.

POL TCY

If adverse weather conditions make it necessary for you to miss work in order to avoid hazardous travel, you must charge the hours missed to vacation leave or arrange with your supervisor to make them up during a week when you do not work a full forty hours. This policy applies even when the university officially closes. (Under the catastrophic weather policy, time does not need to be made up. This policy applies only when the weather, itself, is life threatening -- such as hurricanes or tornadoes.)
